Application PCT/US2026/028135

Structure entry

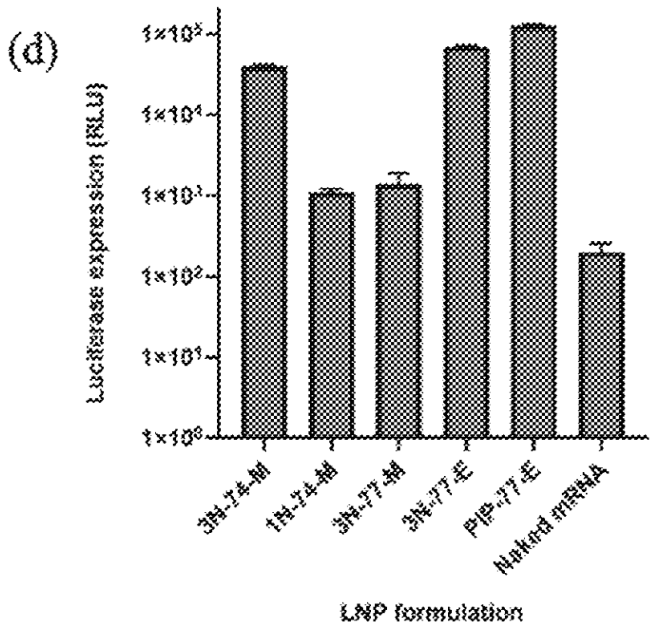

Table 1, printed page 25 (PDF page 27)

The final row of Table 1 names the depicted compound 3-1 (PIP). The excerpt at left reproduces the identifier as printed.

Cell expression

Figure 8d, drawing sheet 6/7 (PDF page 60)

PIP-77-E

Figure 8d labels the test preparation PIP-77-E. The authors report approximately 10^5 relative light units for luciferase expression in HEK293 cells under the study conditions.

The text on printed page 33 (PDF page 35) accompanies the figure. The vertical axis uses a logarithmic scale.

The patent gives no explicit cross-reference from the label PIP-77-E to the structure numbered 3-1.
