

DC65621 | 1,2(R)-Dioleyloxy-3-dimethylamino-propane

Instructions for Use

1,2(R)-Dioleyloxy-3-dimethylamino-propane ((R)-DODMA) is an ionizable cationic lipid and an isomer of DODMA

Product information

CAS No.	Not available
Chemical Name	1,2(R)-Dioleyloxy-3-dimethylamino-propane
Formula	C41H81NO2
M.Wt	620.087
Purity	>98%
Storage	Original product: up to 1 year under the storage conditions stated on the vial, kept tightly sealed. Stock solutions: aliquots at -20°C, generally up to one month.
Shipping condition	Ships from Shanghai. Pure lipid is stable during ice-pack transport.

Formulation & study context

Literature values apply to the cited study only. Administration routes describe research, not clinical instructions.

A complete product-specific formulation has not been verified. No standard ratio is substituted.

N/P ratio	Not reported in the verified record
Cargo	Not available in the verified record
Administration route	Not available in the verified record
Animal model	Not available in the verified record
Formulation process	Not available in the verified record

N/P is a nitrogen-to-phosphate molar ratio. Lipid:cargo mass ratio is a different quantity and must not be used as N/P.

Stock-solution preparation table

Calculated using product-page MW: 620.087 g/mol. Volumes are final solution volumes.

Mass	1 mM	5 mM	10 mM
10 mg	16.127 mL	3.225 mL	1.613 mL
25 mg	40.317 mL	8.063 mL	4.032 mL

Mass	1 mM	5 mM	10 mM
50 mg	80.634 mL	16.127 mL	8.063 mL
100 mg	161.268 mL	32.254 mL	16.127 mL
250 mg	403.169 mL	80.634 mL	40.317 mL

Volume (mL) = mass (mg) × 1000 / [MW (g/mol) × concentration (mM)]. Mathematical conversions only; not measured solubility. Confirm solvent compatibility and the exact material before preparation.

Handling & storage

Provided that storage conditions are as stated on the product vial and the vial is kept tightly sealed, the product can be stored for up to 1 year.

Wherever possible, prepare and use solutions on the same day. If stock solutions must be prepared in advance, store them as aliquots in tightly sealed vials at -20°C. Generally, these will be usable for up to one month.

Before use, and prior to opening the vial, allow the product to equilibrate to room temperature for at least 1 hour.
